Maintenance free ink

SWISSjet®

For Ricoh desktop printers

SWISSJet® is a full cartridge ink set specifically developed for the Ricoh printers to maximize print quality and color performance.
SWISSjet® cartridges are compatible and available for the Ricoh SG3110DN, Ricoh SG7100DN, Ricoh SG3100Snw, SG400 and SG800 printers.

SWISSJet® Refill-R inks are designed for Ricoh printers using refillable cartridges.

For Epson desktop printers **SWISSjet® Refill E**

SWISSJet® Refill-E are designed for Epson EcoTank series and Epson printers equipped with refillable cartridges or bulk ink system and available in 6 colors.

swissjet® DeepRea

Reactive Digital Inks

FOR INDUSTRIAL INK JET
PRINTING ON CELLULOSIC
FIBERS & SILK

For high density color without compromising printing speed

Outstanding high-density color range designed for extreme speed printing machines. Saturated colors are produced without sacrificing color integrity due to the extraordinary runability.
Available for Epson and Kyocera heads.

swissjet® SP series

Sublimation Inks

FOR INDUSTRIAL TRANSFER
& DIRECT PRINTING ON
POLYESTER

For paper transfer printing **SWISSjet® SP series**

SWISSJet® SP inks premium sublimation ranges:
High color yield with all transfer papers.
Outstanding runability with all major printheads.
Fast drying.
High productivity and best cost of ownership.
Available for Epson, Panasonic, Ricoh and Kyocera printheads.

For both transfer & direct to Polyester Fabric printing **SWISSjet® D&T**

SWISSJet® D&T has been developed to achieve the highest color yield in direct to polyester applications.
Excellent color fixation and largest color gamut.
Specifically designed to provide optimal runability with Kyocera printheads.

swissjet® P series

Pigment Inks

FOR INDUSTRIAL DIGITAL
PRINTING ON ALL FIBERS

For industrial Pigment real production setup

The only digital pigment textile inks operating in true industrial production. Simple print and thermal fixation process: no washing off and no steaming required.
Specially selected pigments to ensure outstanding light-fastness and great runability.
Available for Epson, Ricoh and Kyocera printheads
